MEMORANDUM

Date October 30, 1984

To Wally Geno, General Services Director
Bob Bunkley, Director of Finance

From Ronald C Jack, County Administrator *Emmett Jack*

Subject Declaration of Emergency Concerning Disposal of 55 Gallon Drums of PCB
Per Federal Regulations and Requirements

I was notified this date that the billing from Trinity Chemical Company, Inc was double the amount estimated by the Utilities Department based upon the level of PCB concentration in the materials shipped by the County to Trinity Chemical Company. Owing to the concentration of PCB, chemical disposal of the materials was no longer feasible and high-temperature incineration was required under federal regulations.

Because of the hazardous materials and the absolute liability occurring to the County until such time as we have received a certificate of disposal, I am hereby declaring a State of Emergency based upon unforeseen events and a clear and public danger.

With this memorandum, I am instructing the General Services Director and the Director of Finance to authorize immediate incineration of these hazardous materials through full payment to Trinity Chemical Company Inc.

I am also requesting that the Utilities Manager place the item of an additional appropriation of \$8,904 for Council ratification of my actions on the November 19, 1984 Council meeting agenda.

COUNTY OF LOS ALAMOS

MEMORANDUM

10/15/84

TO Wally Geno, General Services Director
FROM Chris Ortega, Assistant Utilities Manager *CO*
SUBJECT Disposal of PCB Oil and PCB Contaminated Transformers

The Utilities Board at its meeting on 10/11/84 approved increasing the amount of the purchase order to Trinity Chemical Company for disposal of PCB liquids from \$10,976 to \$20,000

The increase is necessary because the liquids are pure PCB s and require destruction to meet EPA requirements. The bids were submitted to the County by bidders under the assumption the liquid contained less than 1,000 parts per million PCB

Although the price increased substantially, Trinity s proposal is still the lowest

TO Chris Ortega, Assistant Utilities Manager
FROM Paul Pizzoli, Field Operations Coordinator 
SUBJECT Bid No 85-019 - PCB Transformers

After reviewing all bids for disposal of transformers, it is my conclusion that we award the bid to Environmental International of Denver, Colorado

My decision is based on the fact that this company is the lowest bidder, they will comply with EPA standards and regulations and give us a certificate of disposal within 120 days of the time the transformers reach the Kansas City disposal site

COUNTY OF LOS ALAMOS

MEMORANDUM

09/18/84

TO The Utilities Board
FROM C O Chris Ortega, Assistant Utilities Manager
SUBJECT Disposal of PCB Liquids

I have reviewed all the documentation and discussed this with Jim, and we concur with Paul's recommendation. We recommend the Utilities Board approve the use of Trinity Chemical Company for the PCB liquid disposal.

j1

COUNTY OF LOS ALAMOS

MEMORANDUM

09/18/84

TO James Harder and Chris Ortega
FROM ^{P, P} Paul Pizzoli, Field Operations Coordinator
SUBJECT Disposal of PCB Liquids

Sixteen transformers have been taken out of service, drained and flushed of all PCB liquids. The liquid PCBs and flushing fluids have been placed in 49 fifty-five gallon drums which are currently ready for shipment. The contaminant level in each drum is over 500 ppm, but under 1000 ppm, which will allow for the removal of PCB contaminants from the liquid, and the subsequent reusing of the contaminated oil.

After a bid proposal process and checking of references, we have located a company that will do this processing. The company is Trinity Chemical.

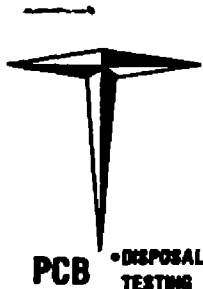

It is my recommendation, at this time, that Trinity Chemical be given the authorization to pick up, transport and dispose of the 49 fifty-five gallon drums of PCB liquid.

The coordination for this can be handled as follows:

Trinity truck will be dispatched from their home office to Los Alamos where they will pick up our PCB liquids for transfer to their home office for decontamination.

This is my recommendation for disposal and decontamination of the above mentioned items.

THIS AGREEMENT MADE AND ENTERED INTO THIS 10th DAY OF September 19 84

BETWEEN Los Alamos County Utilities

WHOSE POST OFFICE ADDRESS AND GENERAL BUSINESS
OFFICE IS LOCATED AT P O Box 30, Los Alamos, New Mexico 87544

HEREIN CALLED THE GENERATOR AND TRINITY
CHEMICAL COMPANY INC A MISSOURI CORPORATION HAVING ITS PRINCIPLE
PLACE OF BUSINESS AT 12714 SECOND STREET GRANDVIEW MISSOURI 64030

- 1 It is understood by the GENERATOR that the only PCB contaminated items authorized and accepted for transport and disposal are the following
 - A Large high or low voltage capacitors
 - B PCB Liquids
 - C PCB Transformers
 - D PCB Contaminated Transformers
 - E PCB Solids (Rags Dirt etc)
2. Ownership and title to the material will transfer from the GENERATOR to TRINITY CHEMICAL CO at the time the material is placed on the hauling vehicle. Upon transfer of ownership GENERATOR agrees that TRINITY CHEMICAL CO has the right to recovery of any part of these materials under E P A guidelines
- 3 GENERATOR agrees to load the material at the designated location. GENERATOR agrees that the material will be properly packaged marked and labeled. GENERATOR agrees to meet all E P A Department of Transportation and any state of residence requirements for packaging. TRINITY CHEMICAL CO agrees to conform with said regulations in transporting and disposal of said material. Driver for TRINITY CHEMICAL CO will furnish labels and will apply them at time of pickup.
- 4 TRINITY CHEMICAL CO INDEMNIFICATION Following loading and departure from GENERATOR'S plant GENERATOR shall be relieved of responsibility and TRINITY CHEMICAL CO shall become solely responsible for any and all loss damage or injury to persons or property and TRINITY CHEMICAL CO shall indemnify and hold GENERATOR harmless from any and all liability damages costs claims demands and expenses of whatever type or nature including but not limited to pollution or other damage which shall be caused by or arise out of or in any manner be connected with the Waste. GENERATOR understands and agrees that exposure to Polychlorinated biphenyls ("PCBs") is perceived by all Federal State and local regulatory protection and enforcement agencies to be of extreme danger to health and the environment
5. TRINITY CHEMICAL CO guarantees to dispose of GENERATOR'S PCB material in accordance with the code of Federal Regulations Title 40 part 761.60 At the time of actual disposal TRINITY CHEMICAL CO will issue a certificate of destruction to the GENERATOR
6. Prices quoted in this contract are guaranteed for 30 days
- 7 Disposal price includes transportation unless otherwise noted all permits and manifests

- 8 The following schedule sets forth the material to be transferred from the GENERATOR to TRINITY CHEMICAL CO and charges for same
